Proceedings of the Prohibition Convention, Held July 10, 1886.

Convention called to order at 2 o'clock p. m., by C. A. Monroe, who nominated E. B. Greene, Supt. at Winona furnace, for permanent chairman; he was unanimously elected.

Mr. Green stated the object of the meeting to be to nominate delegates to the State Convention, to organize a County Club, and to influence more concerted and successful work for the advancing and growing Prohibition party in Hocking county.

Remarks were offered by delegates present, as to the manner of successful work.

A motion was made and adopted to defer the nomination of the County officers until a meeting of the County Club.

A motion to appoint an executive committee to consist of five members was adopted; E. B. Greene, Stephen Rizer, C. A. Monroe, W. H. Lyons, and George Sanders are the committee.

On motion, a committee of three was appointed to draft suitable resolutions expressive of the sentiment of this body, and W. H. Mitchell, George Geiger and C. C. Kennedy were appointed.

On motion the County Club was now organized and names recorded.

The committee on resolutions was ready to report, and the resolutions were read and unanimously adopted.

On motion the Secretary was instructed to request their publication in the County papers, in connection with the minutes of the Convention.

Delegates to the State Convention, to be held at Canton, July 25th and 26th, were now selected, viz: E. B. Greene and Stephen Rizer, with E. Steudman as alternate.

C. A. Monroe was elected Treasurer.

A motion was made and adopted that delegates pay their own expenses to the State Convention and the amount would be refunded by the Treasurer.

Next meeting to be upon the call of the executive committee.

On motion, the Chairman was empowered to use his best judgment in selecting a speaker for the next meeting. Adjourned.

E. B. GREENE, Chairman.

J. T. SANDERSON, Sec.

The following resolutions were submitted and adopted:

1. That, measured by the resources it wasted, by the spirit of lawlessness it fosters, by its obstruction of courts in securing the ends of justice, by its tyranny over public officials; by its corruption of morals, by the youth it destroys, the homes it desolates, the victims it devours, and the souls it damns, we hold the liquor curse to be the most pernicious, deep-seated, and deliberate, destructive crime of any age, and a blighting shame on the face of our christian civilization.

And not only the distiller, brewer, saloon-keeper and drinker are chargeable with the continuance of this crime, but our law-makers and officials who fail to enact and enforce laws for its destruction, and the citizens who vote with political parties that fear or favor the traffic, are in law and in fact, sharers in this awful guilt.

2. That we believe the prohibition of the liquor traffic and the utter destruction of the rum power to be the paramount issue in national and local politics to-day, and the most urgent and necessary work of our government, and that it is wrong for men to subordinate this question to the interest of party, and a great mistake for the people to obey longer the dictates of politicians who are controlled by the saloon.

3. That we are uncompromisingly opposed to any policy or method of dealing with the traffic by "regulation," "taxation," or "license" or any other method that may be devised, which, like these, permit the continuance of this crime; and we hold that a "revenue measure" insults the intelligence, and outrages the moral sense of the people since it is compounding with felony; and well-authenticated statistics show that for every dollar the saloon puts into the public treasury it takes from 7 to 14 dollars out of the pocket of the citizen.

4. That we hereby express our gratitude to God for the rapid growth of our cause and the hopeful outlook, and we call upon prohibition Democrats who have voted for "license," and prohibition Republicans who voted for "tax" to join us in party and political affiliations that do no violence to conscience, manhood, nor patriotism; and let us stand together to respect our convictions, and vote in keeping with our prayer to Almighty God that he will speedily abolish from our fair land this crime of crimes.

LEESBORO, O., July 13, '86.

The wheat crop is now about all gathered and we have a splendid yield this year. The farmers are all much delighted with the excellence of its quality. The oats here are unusually good and will soon begin to tumble before the reapers' keen sickle. The hay crop is generally light, but much better than many expected some time since. The early potato crop is about ready to garner away, and the crop is such that each family has about enough to serve them through the year. Our corn crop does not appear flattering in the least; the wet Spring, cold weather and millions of cut worms were all enemies to the corn, which now is very small and uneven.

There certainly has never been a more abundant crop of all kinds of fruit than this season has brought us; so, truly, the Giver of all we can enjoy has most profusely bestowed his gifts among us.

The health of this community is usually good, though we regret to chronicle that Mr. Joshua Bainter, one of our most esteemed citizens, is on the list of invalids, with a general derangement of liver, stomach, and an affection of the bronchial tubes, but seems some better at writing.

Mr. W. A. Ferguson, who had an attack of hemorrhage of the lungs, some time since, we rejoice to know, is convalescing; and we truly hope he may soon again be able to attend to his business.

One of the saddest events that this community has experienced for some time befell Miss Lizzie Cook, of Black Jack, Ohio, last Thursday.

While she, in company with her sister and sister-in-law, was picking cherries, Lizzie, accompanied by feeling sick, and before she could descend the tree she fainted and fell about twenty feet, so affecting her spine that there is scarce any hopes of her recovery, as yet.

Mr. Samuel Brimmer, who has been visiting friends in this community, returns to his home in Clark county, Ills., on the Wednesday evening train.

Well, one of the most fantastic expressions now to be seen is when a Democrat wants a Republican to take twenty-five cents for his word, as he said he would do if Grover Cleveland were elected President. You can safely bet your gizzard and all the rest of those business concerns that he backs out and wants thirty-one cents and a premium, which he well knows is more than he received during the late years of Republican misrule. We feel glad to state that business is materially on the improve, and that everybody realizes this already.

We have not met a person who has perused the columns of THE OHIO DEMOCRAT who does not feel proud of such a splendid paper published in our midst, and all wish it success; go on with the good cause so nobly begun, and continue to spread the glorious principles of Democracy abroad. ZACH.
